

Give your students access to great deals from Canada's leading PC Company!

Earn commission on sales of Dell Canada products generated from your website.

Provide your students with a convenient shopping channel with information and access to the Dell technology products they need.

Our program allows your college or institute to place a link on your website to access the Dell Canada Online store. Every time a student makes a purchase through the link, your institution receives a commission. This additional revenue provides an opportunity to enhance services to your students through additional investments in computing infrastructure, bursary capital or other key priorities.

Our promotional banners are updated automatically on a regular basis with our latest promotions. We provide all the banners and logos for your site. They can be placed on your home page or any sub-pages or screen savers. All you have to do is sign up and start earning new revenue. It's easy and fast.
